

> SUMMARY

Former higher education professional pivoting to coding in pursuit of simple, intuitive, and functional tools. As a lifelong learner and practical thinker, I aim to meaningfully contribute to my team's pursuit of creative and innovative solutions while cultivating technical and professional growth through collaborative environments and mentorship. I am excited to leverage my skills from my time in higher education to explore all the ways coding can best be used to help meet the needs of its users.

> SKILLS

TECHNICAL SKILLS: Ruby, Ruby on Rails, JavaScript, React.JS, Vue.JS, Jest, Enzyme, React-Testing-Library, HTML5, CSS, SQL, Postgres, REST, APIs, Git

> PROJECTS

HOUSE OF BOOKS ([HTTPS://HAUSOFBOOKS.HEROKUAPP.COM](https://hausofbooks.herokuapp.com))

- Application developed with React.JS to consume GoogleBooks API that allows users to enter search terms into search bar and returns up to 40 results
- TDD development practices followed utilizing both React-Testing-Library and Jest
- Incorporated CSS using Styled-Components

CHIPI-CHIPI (RUBY ON RAILS, VUE.JS, BOOTSTRAP, NGROK, QUAGGA)

- Created full stack application to track prices for the same object on a user-created grocery list across multiple stores.
- Incorporated a barcode scanner to scan in users' favorite products easily.

KILL NIL RESUME APP (RUBY ON RAILS, VUE.JS, BOOTSTRAP, HEROKU)

- Worked in tandem with 15 classmates split into smaller groups to build a microservices-based application to display resumes and relevant capstone information for our cohort.
- Created frontend allowing for simple and intuitive navigation with clear displays.

RATE A RESTROOM (RUBY ON RAILS, VUE.JS, BOOTSTRAP, GOOGLE MAPS API)

- Built application for users to rate public restrooms on various metrics including cleanliness, privacy, gender, amenities, etc.
- Allowed for users to save favorite restrooms and track restroom location visually via Google Maps

LYNXIN (RUBY ON RAILS, VUE.JS, BOOTSTRAP)

- Recreated LinkedIn parody for cats, closely mimicking LinkedIn layout and visual design.
- Integrated functionality for profile creation, including photo uploads. Cat profiles are also able to follow and connect with one another.

> EXPERIENCE

ACTUALIZE

Web Developer

Chicago, IL
Sept. 2018 to Mar. 2019

- Attended a full-time, intensive, 12-week coding boot camp focused on learning Ruby on Rails and Vue.JS.
- Developed multiple full stack web applications individually and in pairs, as well as in teams of varying sizes following Agile practices.
- Mentored new students through whiteboarding, paired programming, and debugging code.

THE UNIVERSITY OF TEXAS AT AUSTIN

Support Services Advisor

Austin, TX
Nov. 2014 to July 2018

- Coordinated annual federal tax filing assistance program for over 1,200 nonresident aliens
- Administered a portfolio of 8 financial assistance programs benefitting over 400 students a semester
- Monitored financial aid award compliance in accordance with university and federal regulations
- Educated students, staff, and parents regarding health insurance, financial aid opportunities, funding issues, and alternatives for international students

THE UNIVERSITY OF TEXAS AT AUSTIN

Financial Aid Officer

Austin, TX
Oct. 2012 to Oct. 2014

- Managed entire portfolio, including processing, verification, and awarding, of over 600 undocumented students' financial aid packages
- Calculated and counseled students regarding the financial repercussions of withdrawing from classes per federal regulations
- Resolved issues with student files, including clearing financial holds, revising aid, and performing loan reviews while adhering to federal guidelines to allow the release of financial aid
- Counseled students, parents, and campus liaisons both in-person and via phone/email regarding college costs and financial feasibility.

> EDUCATION

The University of Texas at Austin

Aug. 2008 to Dec. 2011

Bachelor's Social Work 2011
